DETAILED ACTION

The following is an examiner's statement of reasons for allowance: The combination of a stator winding having two parts wherein the open end of the first winding is shaped so that opposing two sides sections form a step in a radial direction of the stator core and the opened ends of the winding are bent toward one another with the balance of the recited structure is neither found nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
